Product description:

Achieve naturally defined, full eyebrows!

The Eyebrow Powder Duo is the perfect way to draw attention to the eyebrows.

The two colours can either be used on their own or in combination to even up your eyebrows and fill in gaps.

Alternatively, you can mix the two colours to create your own individual shade.

The integrated brush allows you to apply the powder precisely and create naturally beautiful eyebrows.

Whether you want a discreet look for the day or a more dramatic effect for the evening, the powder can be applied in various ways to suit any occasion and taste: The more and thicker the individual brush strokes, the fuller your eyebrows will look.

For extra definition and fullness, your brows can also be filled in with the Eyebrow Pencil.

Tips from Gabi Köberl:

Take a small amount of lavera Intense Eyebrow Powder with the brush and apply to the eyebrows in short, smooth brushstrokes. If one application fails to achieve the desired intensity of colour, apply a second layer.
