Product description:

What is your lipstick look today? With a palette of trendy colours to choose from, you will have the right lip colour for every occasion. Sante Lipstick comes in a wide range of shades, from dramatic and bold to sweet and flirtatious, intense or translucent, classic or trendy. This skin-friendly, moisturising lipstick is free from any synthetic colouring agents, preservatives or fragrances.

Women have been wearing lipstick for many thousands of years to highlight their lips and enhance their beauty. This one simple makeup item really goes a long way and the difference that lipstick can make to your look is quite dramatic. Lipstick highlights your beautiful lips, giving them shine and a beautiful colour that complements your skin tone.

When you are wearing Sante lip colour, it will not only be giving you a glamorous look but also nourishing the delicate skin of your lips at the same time. This high quality natural lipstick contains organic jojoba, protective quince seed, sweet almond oil and candella and carnauba waxes. These super botanical ingredients will infuse your lips with long lasting hydration. This gentle formula does not contain synthetic preservatives, fragrances or colouring agents so it is soothing on even the most sensitive skin.

Why not give these bold and beautiful lip colours a try today?

Tips from Gabi Köberl:

To create the look of glamorous and elegantly defined lips, outline the contours of your lips before applying your lipstick with the lip liner. This will help to prevent the colour from smudging out of the lip.

Gently smooth the lipstick onto the lips, pressing lightly but firmly. Press your lips together afterwards to evening distribute the pigment. If you have applied too much, you can always blot your lips with a tissue to take away some of the colour.
