

Nail Polish No. 04 Plumtheory

Manufacturer: Sante
Order ID: 843027
Price: 3.99 €

Product description:

Spice up your look with bold and vibrant nail polish shades! Sante Nail Polish colours have a high quality quick drying formula which is long lasting and chip-resistant. Our natural and hypoallergenic nail polishes are free of any harmful chemicals such as toluene, colophony rosin and formaldehyde and are also gluten free.

The perfect look is all about the details and painting your nails in the right shade can be that small detail that puts a finishing touch on an already gorgeous ensemble. It's very easy to change the colour of your nails, but this little change can make a really big difference. Your nails can convey many different moods and messages, from flirty and romantic to youthful and funky to classic and elegant, so why keep them bare when they can be fabulous?

Sante Nail Polish comes in a range of 20 beautiful and vibrant colours, so you will have plenty of great looks to choose from. The high quality formula means long lasting colour, so that you don't have to worry about your nails looking chipped and faded after only a few days. We also pride ourselves on using gentle natural ingredients and avoiding all chemicals including colophony rosin, toluene and formaldehyde.

Why not try out a new and bold shade on your nails today? There are plenty to choose from and you can even mix and match to create patterns on your nail. Painting your nails is a small detail, but it makes a big difference in the way you look and feel and it really completes your style.

Ingredients:

Ethyl Acetate, Nitrocellulose, Butyl Acetate, Alcohol, Polyester-23, Triethyl Citrate, Adipic Acid/Neopentyl Glycol/Trimellitic Anhydride Copolymer, Stearalkonium Bentonite, CI 77891 (Titanium Dioxide), Diacetone Alcohol, CI 77120 (Barium Sulfate), CI 15850 (Red 6), Silica, Maltol, CI 15850 (Red 7 Lake), Triethoxycaprylylsilane, Isopropyl Alcohol, Phosphoric Acid, CI 15850 (Red 7), Pentaerythrityl Tetraistearate, CI 15880 (Red 34 Lake)

Tips from Gabi Köberl:

Prepare your nails for painting by cutting them, filing them, pushing back your cuticles and applying a primer to the nail. Next, apply the nail polish in steady, even strokes along the length of the nail. Don't load too much on your brush, as this can cause drips and will result in polish that is too thick and chips easily. Let your nails dry from the first coat, then apply a second coat. Finish with a clear gloss to make them last longer.
