Product description:

Are you looking for Sensational volume and expressive eyelashes? New Sante Volume Sensation Mascara not only gives great volume with its expertly designed brush, but above all the dense mascara brush does not miss an eyelash when you apply it, giving you the sensational look you've always wanted from your mascara. Natural vitamin E, organic oils of sunflower and almond deeply nourish while organic castor oil and beeswax protect your eyelashes from the elements.

The first thing that comes to mind when we think about perfect eyelashes is volume. This can be achieved by applying the right mascara using the perfect brush that delivers great consistency. This is why Sante has improved the classic Mascara by creating a special dense brush that covers your eyelashes from root to tip. The combination of organic waxes, oils and natural vitamin E ensure your lashes are gently cared for and your eye makeup lasts all day long.

Sante Volume Sensation Mascara is suitable for sensitive eyes and for people who wear contact lenses.

Tips from Gabi Köberl:

Start by lightly moving your mascara wand from left to right at the base of your lashes. When you apply mascara near the roots it gives the illusion of more length. Next, pull the wand up through your lashes, gently moving it back and forth as you go. It is important to move the wand, as this separates your lashes.

Wait five seconds before blinking or you may end up with small flecks of mascara around your eyes!
