

Big Lashes Mascara

Manufacturer: Sante
Order ID: 843261
Price: 9.99 €

Product description:

The special formula gives your lashes volume and the plant-based carbon pigments provide an especially intense black.

The 180° brush design with uniquely shaped fine bristles gives the brush an open surface so it can hold more product. Your lashes fall lightly into the gaps in the brush and are covered with product all the way around.

The tip of the brush can be used to cover smaller, fine lashes while lifting them into position.

Combined with the high-quality mascara, each lash will be runway-ready.

Suitability for eyes and contact lenses has been medically confirmed.

Tips from Gabi Köberl:

Apply the mascara as usual to the full length and width of your lashes in a zigzag motion.
