Product description:

Lüttes Welt Best friends Magic Wand enables your child to leave colorful traces in the water. It's unlikely to color the bathwater in a more spectacular way. At the same time the child's delicate skin is nourished with sea salt and natural greasing oils.

Fill the tub with age-appropriate temperature water. Open the wand at the marked point. Now your child can conjure with the rod in hand and leave colorful traces in the bathwater and transform the bathtub into a purple lagoon.
