* from controlled organic cultivation

free of synthetic preservatives, dyes, PEG, paraffin oil

Tips from Gabi Köberl:

Allow yourself a cure treatment with the BIOTURM anti-dandruff trio:

1. Hair washing: During 4 weeks, wash hair every 2 to 3 days with the Shampoo anti-dandruff No.16. Leave the shampoo to act for 3 to 5 minutes.

2. Conditioner: After washing, use our Conditioner anti-dandruff No.21 to take care of the hair.
3. Tonic anti-dandruff: Finish the cure treatment with the intensive care of the Tonic anti-dandruff No.22.

After 5 to 8 weeks, reduce the anti-dandruff line step by step by switching to a mild shampoo (e. g. our BIOTURM Shampoo dry scalp No.15). Still use the anti-dandruff line once a week during the next 3 months to avoid new formation of dandruff.
