

Hair tonic anti-dandruff

Manufacturer: Bioturm

Order ID: BT339

Price: 9.95 €

Product description:

The additional care for the scalp to our Shampoo anti-dandruff No.16 and the Conditioner anti-dandruff No. 21 in case of greasy dandruff caused by fungal infections. A special vegetable component of lactic acid gives extra care and efficiently reduces formation of dandruff. The composition of the lacto-intensive active complex calms and normalises the scalp. The hair is intensively cared for and becomes easy to comb. Rosemary and green coffee extract of organic cultivation stimulate and regenerate.

Ingredients:

Aqua, Alcohol, Glycerin, Betaine, Lac*, Rosmarinus Officinalis Oil*, Coffea Arabica Seed Extract*, Sodium Caproyl/Lauroyl Lactylate, Parfum

* from controlled organic cultivation
free of synthetic preservatives, dyes, PEG, paraffin oil

Tips from Gabi Köberl:

Allow yourself a cure treatment with the BIOTURM anti-dandruff trio:

1. Hair washing: During 4 weeks, wash hair every 2 to 3 days with the Shampoo anti-dandruff No.16. Leave the shampoo to act for 3 to 5 minutes.
2. Conditioner: After washing, use our Conditioner anti-dandruff No.21 to take care of the hair.
3. Tonic anti-dandruff: Finish the cure treatment with the intensive care of the Tonic anti-dandruff No.22.

After 5 to 8 weeks, reduce the anti-dandruff line step by step by switching to a mild shampoo (e. g. our BIOTURM Shampoo dry scalp No.15). Still use the anti-dandruff line once a week during the next 3 months to avoid new formation of dandruff.
