* from organic farming, ** from essential oils

Tips from Gabi Köberl:

Depending on your hair length, apply a sufficient amount of khadi Conditioner to your hair, gently spread the cream into lengths and tips, and after a few minutes, rinse thoroughly with warm water. Depending on your needs, you can use the Conditioner after each hair wash. Please do not use the conditioner in the hairline as they do not require additional care.

Tip 1:

If you want to treat your hair from time to time with a very intensive care, you can also use the Conditioner as a repairing hair mask. Generously spread the nourishing cream conditioner in your freshly washed hair, wrap some foil or towel around it and let it work for half an hour. Then rinse thoroughly with warm water. Look forward to supple, well-groomed hair and radiant shine!

Tip 2:

You have very firm, brittle or curly hair? Then you can also use the Conditioner as a leave-in. Please note: use very sparingly - maximum pea size with shoulder-length hair! Put the conditioner in your hand, rub the cream in the palms and gently knead it into the lengths and tips. Tames also strawy, frizzy or charged hair.
