Product description:

The color shade lightblond adds a permanent shimmer of lightblond to slightly redblond on grey hair. The color is permanent and does not wash out. Blond hair turns a little darker by adding the herbal color to the natural color. Darker hair is just being conditioned. A change in color is not visible.

Tips from Gabi Köberl:

.First clean your hair with a silicone-free shampoo like khadi Amla Shampoo. For blonde or stressed hair first apply khadi hair oil before the color, let it act for 20 minutes and then shampoo again. khadi Natural Hair Color Light Blonde can also be used as a color rinse to refresh any other khadi hair color. With dark hair, it enhances shine and emphasizes brighter strands.

Mix the powder of the natural hair color with 50 degrees hot water in a bowl (preferably glass or ceramic). Mix both with the whisk until you have a spreadable paste. Spread this evenly with a brush in your hair: strand by strand – from the roots to the tips. If you only want to your hairline, spare lengths and tips.

If you use the khadi Light Blonde as a color rinse, leave it for the first time 15 minutes. Increase the time for the next application. For the coloring, let the hair color act for 30 to 60 minutes. At 30 minutes you get a cool, bright blonde. For a warm, golden blonde, leave khadi Light Blonde at least 60 minutes in your hair. Then rinse with clear water - ready.

In the next 24 to 48 hours the natural hair color unfolds. Do not use Shampoo during this time to achieve an optimal result. Then apply a khadi hair oil and leave in for 20 minutes to fixate the pigments - for a long lasting color experience.

Note: Each hair is different - the way we are all different. Therefore the results can be different for natural hair color. We suggest you test the natural hair color khadi LIGHT BLONDE only on a discreet strand of hair.
