Tips from Gabi Köberl:

First, clean your hair first with a silicone-free shampoo like khadi Hibiscus Shampoo. For a more intense result, you can pre-treat with khadi Blonde nuances, khadi Light Brown or khadi Hazelnut. If you want to refresh

medium blonde shades, mix khadi Medium Blonde with Senna / Cassia.

Mix the khadi plant hair color Medium Blonde with 50 degrees hot water using a whisk - until you have a smooth paste. This should be spread evenly in your hair - preferably with a brush: strand for strand from the hairline to the tips. If your hair is already colored with khadi Medium Blonde, only treat your hairline.

Leave in the natural hair color between 30 and 60 minutes. For a cool, medium blonde, up to 30 minutes. For a warm, golden to reddish blonde you need an exposure time of 60 minutes or longer. Then rinse the color with clear water - done.

Do not use shampoo for 24 to 48 hours. During this time, the color develops fully. Then fix the pigments with khadi hair oil and wash it out after 20 minutes with a natural hair wash. So you enjoy your new hair color for a long time.

Note: Each hair is different - the way we are all different. Therefore, the results can vary. We suggest to test the khadi Natural Hair color Medium Blonde on a discreet sample hair strand.
