Tips from Gabi Köberl:

First clean your hair with a silicone-free shampoo - like khadi Nutgras shampoo. The khadi Blonde tints from Golden Hint to Medium Blonde are suitable for pre-treatment if you want to achieve a more intensive result with khadi Dark Blonde. In order to prepare your hair optimally for the natural hair color, we recommend to pre-treat highlighted or heavily strained hair with khadi Senna / Cassia or khadi Light Blonde.

Mix your khadi Natural Hair Color Dark Blonde with 50 degree hot water and a whisk until you have a smooth paste. Use a brush to spread evenly on your hair: strand for strand - from the top to the lengths. If you only want to color your roots, spare lengths and tips.

Leave in the natural hair color for 30 to 60 minutes. The longer it stays in your hair, the darker the color results. An exposure time of up to 30 minutes, provides you with a cool, light to medium. For a more intense, darker nuance leave in for 60 minutes. Simply rinse your hair with clear water - done.

Do not use shampoo for the next 24 to 48 hours. Give khadi Dark Blonde this time to unfold its full color intensity. Then fixate the color pigments 20 minutes with a khadi hair oil before washing your hair with a natural shampoo - for a long-lasting dark blonde.

Note: Each hair is different - the way we are all different. Therefore, the results can vary. We suggest to test the khadi Natural Hair color Medium Blonde on a discreet sample hair strand.
