Manufacturer: Dr. Hauschka
Order ID: 1420003488
Price: statt 6.00 €
nur **2.99 €**

Product description:

Even mature skin changes. As we reach an age of about 50 or 55, fine lines and wrinkles become more pronounced and our skin becomes slacker, drier and more sensitive. Now is the time to treat your demanding, mature skin to some specially developed, rich facial care. Dr. Hauschka Regenerating Day Cream Intensive firms and tones the skin and helps counteract waning elasticity. Despite its extremely rich formulation, it is delicate to apply and absorbs quickly. The day cream offers long-lasting protection and is extremely well-tolerated by increasingly sensitive skin. It also makes an ideal base for make-up.

Ingredients:

Carota Sativa Root Extract, Pyrus Cydonia Peel/Fruit Cera, Parfum*, Citronellol*, Linalool*, Geraniol*, Coumarin*, Farnesol*, Benzyl Benzoate*, Eugenol*, Benzyl Alcohol*, Citral*, Limonene*, Benzyl Salicylate*, Theobroma Cacao Seed Butter, Helianthus Annuus Seed Oil, Triticum Vulgare Bran Extract, Sucrose Polystearate, Polyglyceryl-3 Polyricinoleate, Chondrus Crispus Extract, Xanthan Gum, Algin.

*from natural essential oils

Tips from Gabi Köberl:

Apply to the face each morning after cleansing, toning and revitalising. In the evening after cleansing and toning, we recommend applying a Dr. Hauschka Serum for daily, oil-free night care. For advanced care, Renewing Night Conditioner or Sensitive Care Conditioner may be used for a 28-day period several times a year.

When your skin needs extra care in winter, apply a daytime skin care product prior to Regenerating Day Cream Complexion.
