Product description:

Spicy Cell-lite Elixir Body Oil: Liberating fire for your skin. khadi Spicy Cell-lite Elixir Body Oil kick-starts your skin's metabolism and burns off the toxins stored in your body's fat deposits. khadi Triphala Tritox Skin Oil – our ultimate detox weapon – dissolves toxins trapped in your tissues and helps your lymph start to flow, and khadi Spicy Cell-lite Elixir Body Oil fires up your skin's metabolism and burns off the toxins stored in your body's fat deposits. It turns this “toxin depot” (which we know as cellulite) into a furnace for your cells. The traditional formula includes Ayurvedic ingredients like long pepper, clove, ginger, and brown mustard oil that have been used in Ayurvedic treatments since time immemorial to revitalize the body and re-energize the cells. At the same time, the blend of essential oils fuels your spirit and strengthens your will to live life to the full.

The secret to this rejuvenating effect is khadi Spicy Cell-lite Elixir: khadi Elixir is prepared according to ancient Ayurvedic formulas using a traditional practice that involves gently simmering hand-picked Indian medicinal herbs over an open fire. Ayurvedic plant extracts prepared in this way (medicinal decoction) combine the full potential and unique essence of the individual plants to create a harmonious whole.

According to Ayurvedic tradition, black pepper, long pepper, and ginger, when combined, are more than the sum of their parts. This mixture has a stimulating effect, burns off residue, and promotes healthy circulation.

Clove and turmeric also promote circulation into the deepest layers of the skin and have anti-inflammatory properties.

Known as a medicinal herb for millennia, nut grass has gentle but lasting anti-inflammatory, cleansing, and restorative effects.

Cinnamon boosts metabolism throughout the body and helps regulate insulin levels.
