Product description:

Exfoliating, clarifying, moisturising

The AHA/BHA Glow Refiner with its natural exfoliating complex not only clarifies impure areas of the face, but also provides normal skin with an even and refreshing glow. Concentrated AHA and BHA acids from fruit and plant extracts stimulate skin renewal. At the same time, fair-trade organic care ingredients soothe the skin with that extra moisture. A clarifying serum for radiantly pure, smooth skin in natural balance.

Chemical peeling serum with AHA and BHA

Natural alpha and beta hydroxy acids exfoliate the facial skin down to the pores and help achieve a clean, even appearance with that special glow effect. The AHA fruit acids from summer fruits in our exfoliating serum renew the skin's appearance.

The 8% AHA active complex of high-quality blueberry, orange and lemon extracts powerfully stimulates the skin. Effectively but gently, it removes callused, dead skin flakes cells from the top layer of the skin and can reduce pigmentation marks.

At the same time, 5% willow bark extract as a plant-based BHA source refines all facial skin and ensures deep cleansing – ideal for counteracting skin impurities. In this way, the vegan AHA/BHA Glow Refiner provides gentle chemical exfoliation that renews and clarifies the skin for a long-lasting effect.

Aloe vera, mallow and jojoba

Fair trade aloe vera intensively moisturises dry areas after exfoliation and soothes them with delightful freshness. Boosted by black elderberry, the high-quality mallow extract additionally smoothes blemish-prone skin with its pore-refining, clarifying action.

Cold-pressed organic jojoba oil gives the skin antioxidant protection against free radicals. In combination with fair trade apricot kernel oil, it regenerates any skin and leaves it noticeably soft and supple.

Tips from Gabi Köberl:

Simply massage a few drops into cleansed facial skin before applying a care cream or as a stand-alone care product. Use preferably in the evening. Avoid eye and mouth area and skin contact with the pipette. Use 1-2 times a week at first and increase frequency as needed.
