

2-Phase Hydrating Concentrate

Manufacturer: I&M
Order ID: 570409
Price: 23.90 €

Product description:

Double freshness in 2 phases

Highly dosed moisturising serum and intensively nourishing regenerating oil are combined in a single application of the 2-phase Hydrating Concentrate. It moisturises all skin types with plant extracts, while exquisite organic oils and natural lipids simultaneously smoothen the face. Dry, dehydrated facial skin gains vitalising freshness and resilience for a firm, supple complexion thanks to its 2-phase formula.

Hydrating Phase – AquaCacteen™, Hyaluron and Aloe Vera

A highly concentrated moisturising complex of various plant-based active ingredients provides the skin with optimal moisture. AquaCacteen™ obtained from prickly pear cactus absorbs immediately and directly binds moisture reservoirs. Skin-firming and soothing, this innovative active ingredient also effectively protects the skin from oxidative stress. Hyaluronic acid and fairly traded organic aloe vera additionally moisturise the skin, leaving it with refreshing elasticity.

Regenerating Phase – Peptides, Squalane and Bisabolol

In a second phase, plant peptides and valuable lipids stimulate cell regeneration and prevent dryness wrinkles. Gently moisturising squalane made from olive oil unfolds antioxidant care substances, while bisabolol nourishes and soothes with lasting effect. Natural stone seed root extract lends the regeneration oil its intensive colouring. The 2-phase hydrating concentrate leaves the face soft and silky.

Ingredients:

AQUA, SQUALANE, ALOE BARBADENSIS LEAF JUICE* (ALOE VERA*), CAPRYLIC / CAPRIC TRIGLYCERIDE, OCTYLDODECANOL, PENTYLENE GLYCOL, HELIANTHUS ANNUUS HYBRID OIL* (SUNFLOWER*), GLYCERIN, ZINC LACTATE, BISABOLOL, HEXAPEPTIDE-11 (PEPTID), TOCOPHEROL (VITAMIN E), SODIUM HYALURONATE (HYALURON), OPUNTIA FICUS-INDICA STEM EXTRACT (PRICKLY PEAR), LEUCONOSTOC / RADISH ROOT FERMENT FILTRATE (RADISH ROOT FERMENT), SIMMONDSIA CHINENSIS SEED OIL* (JOJOBA*), LITHOSPERMUM ERYTHRORHIZON ROOT EXTRACT (STEINSAMENWURZEL), SODIUM CHLORIDE, DISODIUM PHOSPHATE, ACACIA SENEGAL GUM (ACACIA), IPOMOEA BATATAS ROOT EXTRACT (SWEET POTATO), MALTODEXTRIN, CITRIC ACID, PARFUM**, CITRONELLOL**, GERANIOL**, LIMONENE**, LINALOOL**

* organic agriculture ** from natural essential oils

Tips from Gabi Köberl:

Shake well before use. Then gently apply to cleansed skin and massage in before applying face cream or as a stand-alone treatment.
