

## Refining Night Liquid

Manufacturer: I&M  
Order ID: 570412  
Price: 21.90 €

### Product description:

#### Refined complexion overnight

The midnight-blue Refining Night Liquid is an exceptionally gentle liquid exfoliant for your evening routine – ideal for use four times a week. Powered by natural active ingredients, it supports the skin's natural renewal process and refines the complexion overnight.

The potent blend of BHA, PHA and succinic acid absorbs quickly, gently dissolving dead skin cells and stimulating cell renewal. At the same time, its ultra-light, fragrance-free formula soothes and hydrates the skin. The result: a clear, balanced complexion by morning – perfectly prepped for the next step in your skincare routine.

#### Naturally gentle exfoliation for radiant skin

The Refining Night Liquid relies on an extremely mild complex that visibly refines skin texture – without any mechanical abrasion.

BHA deeply cleanses the pores and helps calm inflammation, while PHA gently removes dead skin cells and locks in moisture. PHA can also help stimulate collagen production, smoothing the appearance of fine lines for a more even, refined skin tone. Combined with antioxidant succinic acid, this trio works to rebalance and soothe the skin – ideal for redness, irritation and blemishes. Succinic acid also helps protect stressed skin from free radicals and supports its natural equilibrium.

Hyaluronic acid, aloe vera and glycerin provide lasting hydration and leave the skin feeling soft and supple until morning.

## Soothing Panthenol Booster

Panthenol has long been a trusted classic for calming the skin. In the Refining Night Liquid, we use an innovative plant-based alternative: Pantodium CICA, derived from the green algae *Codium tomentosum*, known for its remarkable self-regenerating abilities.

Pantodium CICA has been shown to naturally stimulate the skin's own production of panthenol – without synthetic provitamin D-panthenol. The resulting Pantodium B5 complex supports the skin's nightly regeneration, reduces redness and helps maintain a healthy microbiome – while providing deep hydration.

Especially suited to sensitive, blemish-prone or inflammation-prone skin, as well as areas with scarring, the Refining Night Liquid works gently yet effectively – free from synthetic fragrance and harsh acids.

## Ingredients:

AQUA, ALOE BARBADENSIS LEAF JUICE\* (ALOE VERA\*), GLYCERIN, PENTYLENE GLYCOL, PROPANEDIOL, SUCCINIC ACID (BERNSTEINSÄURE), SALICYLIC ACID (BHA), GLUCONOLACTONE (PHA), SODIUM HYALURONATE (HYALURON), GARDENIA FLORIDA FRUIT EXTRACT, MARIS AQUA (MEERWASSER), CODIUM TOMENTOSUM EXTRACT (ALGENEXTRAKT), MALTODEXTRIN, XANTHAN GUM, GELLAN GUM, SODIUM HYDROXIDE, SODIUM CITRATE, LACTIC ACID, CITRIC ACID

## Tips from Gabi Köberl:

In the evening, after cleansing, pour a small amount of liquid toner into your palms and gently press it into the skin, avoiding the eye and mouth area. Do not rinse off. No cotton pad needed.

Enjoy your freshly refined, glowing complexion – then follow with a serum or fluid and finish with your night cream.

Note:

- Gradually increase to around four uses per week. A mild tingling sensation is normal.
- Always use sun protection during the day.
- Discontinue use during pregnancy.
