Product description:

Delicate glow on the skin – day after day

With its gentle, floral fragrance of rose and jasmine, Rosy Glow Cream gives the skin a smooth, healthy appearance. Exquisite organic substances and fair-trade mineral pigments are immersed in a delicate rosé to instantly give tired facial skin a velvety, naturally firm feel with a subtle sheen. This nourishing day cream leaves every skin looking irresistibly radiant.

Rosehip, azelaic acid and rose

Cold-pressed, organic rosehip seed oil (made using the seeds of the dog rose) ensures a silky smooth complexion. This exquisite oil gently pampers facial skin and is combined with fair-trade almond oil for nourishing and soothing properties. The rich moisturising cream is also absorbed incredibly easily, without leaving any residue.

At the same time, plant-based azelaic acid refines and regenerates the complexion directly for that extra-fresh glow. It gently helps restore the skin's natural balance in case of any redness or impurities, for example pimples. Enriched with harmonising rose water, moisturising hyaluronic acid, and fair-trade aloe vera, this exquisite face cream revives skin's elasticity and gives it a firmer feel. As a result, the Rosy Glow Cream offers natural skin regeneration and a radiant glow for every skin.
