

Regenerating Foot Cream

Manufacturer: I&M
Order ID: 521220
Price: 10.90 €

Product description:

Replenishing, refreshing, rich

The Regenerating Foot Cream cares for heavily stressed foot skin with nourishing organic oils and fair trade shea butter. High-quality extracts flatter and revive strained soles of the feet. The aromatic herbal mint fragrance of Hands and More Foot Cream revitalises tired feet and makes them ready for a fresh start.

Shea butter, almond and apricot

Shea butter soothingly pampers and protects dry, chapped feet. By strengthening the skin's natural barrier, shea butter protects rough and chapped skin and calluses from further drying out. Fair trade almond and apricot oil are also ideal for keeping calluses supple and preventing them in the long term. Smooth, well-groomed skin follows on its heels.

Invigorating foot cream - a balm for the feet

Just like a caring balm, Regenerating Foot Cream gently soothes even sore heels. At the same time, preventive application is the best anti-callus care. Witch hazel enhances the skin's natural balance. Rich in valuable minerals, ginseng has a strengthening and revitalising effect after a long day.

In Asia, ginseng is also known as the "root of life". Embedded in a formula of moisturising aloe vera and vitamin E, it ensures both refreshed and supple feet.

Ingredients:

AQUA, ALOE BARBADENSIS LEAF JUICE* (ALOE VERA*), GLYCERYL STEARATE SE (PLANT-BASED WAX), GLYCINE SOJA OIL*, PRUNUS ARMENIACA KERNEL OIL* (APRICOT*), PRUNUS

* organic agriculture

Tips from Gabi Köberl:

Apply well to and under the feet after washing and as needed. Massage in with relish and enjoy the refreshing scent of mint. Absorbs quickly and is not greasy.
